

MATHIS GANTELET

JOB OBJECTIVES

I am a second-year student in computer science, it's my second-year university in computer science. I really learned a lot of knowledges which will help you. Because of my recent studies, I can bring to you the newest standards in a lot of programming languages. I have also worked a lot in C++ by myself and I'm proud of my level with this language.

devecout@gmail.com

ADRESS :

6 alley of Platanes,
74000 Annecy - FRANCE

INTERESTS

Computer Science
Guitar
Video games
Sciences
To create funny / unusual things

EXPERIENCES

Check-out operator

Carrefour, Sevrier, Haute-Savoie

2020 - 2021, 6 months, every weekend

When I was check-out operaor, I had to communicate with the customers. This is probably the job with the more customer-seller exchanges. I did a lot more other things than holding my post.

Maintenance man

Grand-Mont Agency, Les Saisies, Savoie

2018 - 2020, 4 months each year, every Saturday

As a maintenance man my work was to clean the locations which belong to my agency. It was a very instructive job, I learnt the basics of how to work with other people, to be pernickety about my work. We were working in team of 2.

QUALIFICATIONS

DUT INFO, IUT – University of Savoy – Annecy, France

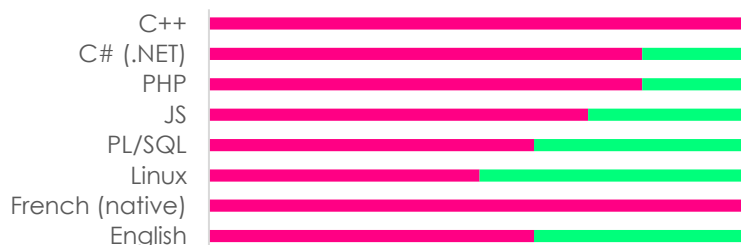

2020-2022

University technical diploma in computer engineering.

It include :

- Web development (HTML/CSS, PHP, JS)
- Application Development (C/C#, Python)
- DataBase (SQL, pgSQL, mySQL, ...)
